Proven delivery across **government, commercial, industrial, education, and aged-care sectors**

Mission Statement

To deliver premium, reliable and safe building maintenance and works for government, commercial and industrial clients across Western Australia. Through high-quality workmanship, responsive service and strong partnerships, we minimise disruption and add lasting value to our clients-built assets.

Our vision is to be the contractor of choice in Western Australia for excellence in building maintenance, refurbishment and works recognised for innovation, professionalism and sustainable outcomes, while fostering a culture where people, safety and the environment always come first.

- 1. Quality & Craftsmanship:** We commit to exceptional standards in all works, using skilled tradespeople, robust methods and best-in-class materials.
- 2. Safety, Health & Environment:** We prioritise the wellbeing of our people, clients and communities by maintaining safe workplaces, controlling risk, and pursuing eco-sensitive practices.
- 3. Reliability & Responsiveness:** We act promptly, keep commitments and respond effectively to emergency and reactive maintenance needs, reducing disruption for clients.
- 4. Integrity & Compliance:** We uphold transparency, ethical conduct and full compliance with statutory, regulatory and contractual obligations in all operations.
- 5. Collaboration & Long-Term Partnerships:** We build strong relationships with clients, suppliers and stakeholders, working together to deliver tailored outcomes and continuous improvement.
- 6. Innovation & Continuous Improvement:** We embrace new systems, methods and technologies to improve efficiency, reduce costs and enhance service delivery

Leadership Team Highlights

Managing Director

Using 25 years of industry experience, our Managing Director developed Quantum Building Services to provide a reliable service and quality workmanship for clients. He has experience in Cabinetry, Carpentry, building estimation, Site supervision, Project management, and a diploma of Construction.

This experience enables a flexible and adaptable approach across all areas of business operations and development, including supporting managers, overseeing projects, estimating, training, safety, and completing priority carpentry works.

Operations Manager

Leveraging his background as a General Manager in the hospitality industry, along with formal qualifications including a Diploma in Project Management and HIA Site Supervision Accreditation, Our Operations Manager has successfully developed a department and fostered strong interpersonal relationships within the QBS team.

In his current role, he systematically manages client liaison, maintenance scheduling, and the coordination of small works.

Project Manager

Our Project Manager brings over 10 years of experience in the building industry; beginning his career as a carpenter in ground-up residential construction. He then progressed to leading hand roles, before moving into estimating and project coordination.

Currently completing a Diploma in Project Management, he is highly skilled in communication and possesses extensive knowledge of building compliance and regulatory requirements.

Admin Manager

With over 10 years of experience in the construction industry, combined with in-depth knowledge of construction products, procedures, and height safety management at a state level, our Admin Manager brings a well-rounded skill set to the business.

Her expertise in financial control, supported by a Diploma in Accounting and Bookkeeping, make her highly proficient in managing both internal financial processes and administrative requirements. She effectively oversees business operations and ensures seamless support for valued clients.

Why Choose Us

Quality
workmanship

Integrity and
reliability

Locally based,
WA-focused
